PRODUCT DATA SHEET

Sfera Ø500 Led Reflex surge protection KIT

Code : CS160030

- When purchased the protection kit will be installed inside the fitting
- These protective components are fitted with an LED indicator
- Once the end of the component's life has been reached, the green LED goes out and the protective component has to be replaced
- If the protective luminaire component overloads, the connected lighting circuit will be interrupted

TECHNICAL SPECS
- AC-system: TT-TN-IT
- Temporary overvoltage:
(TOV)-LV: 443VCA (5sec.) /443V (120min.)
(TOV)-MV/HV: 1200VCA (200 msec.)
- Isccr: 4500A
- With integrated thermal fuse
- DEKRA approved acc. to IEC 61643-11
- Class II
- Screw terminals: 0,75-2,5 mm²
- Protection degree: IP20
- Max impulse voltage: UOC 10KV
- Voltage protection level: L-N <1500V

DIMENSIONS
- 76x27x34mm

Rev. 1 - 26/9/19

Details
• Conformity with EU Directives
• IP
